### IN THE POLITICAL FIELD.

DRYGOODS MEN RAISE A BANNER. A PINE EMBLEN OF VICTORY-SPEECHES BY ABLE ORATORS

The Wholesale Drygoods Republican Club raised a banner yesterday noon in front of its headquarters, No. 324 Broadway, smid the cheers of hearly 2,000 members and friends. It is the same banner that was used by them four years ago, under which thousands of business men then marched to victory. It is one of the largest Republican banners in the city, being about fifty by thirty feet, and is a beautiful and worthy symbol of an enthusiastic and energetic of the club and the names of the Republican candidates for President and Vice-President. Below are represented the munufacturing, farming and commercial interests of this country, which have been built up under the operation of the

protective tariff. After the banner had been swing scress Broadway and three times three cheers and three times three more had been given for the Republican candidates, the audience adjourned to the half. William B. Fuller, the presiding officer, in open-ing the meeting said: "That banner is American in device, material and inscription. It does not tell the American workingman that he is in s re distress, that his wife and children are starving, and that his country is going to ruin. There no such word as calamity on it. words inscribed there are those of prosperity and success. It would not be allowed to hang for five minutes over a highway in Lendon, Liverpool or Manchester, but it will swing peacefully here until election, to be blessed by thousands and thousands of true Americans." (Prolonged applause.) S. J. Foran, of Illinois, also spoke briefly upon the patriotism which the banner

Hugh Coleman, Republican candidate for Resigter, was next introduced. He disproved the Democratic argument that the tariff is a tax on the consumer, and showed how the Democrats had precipitated a financial crisis whenever they had an opportunity to put in operation a tariff for revenue only. A. M. Dewey, of Washington, D. C., formerly an edifor of "TA Knights of Labor Journal." Philadelphia, made an eloquent appeal to workingmen to support the Pepublican ticket. He said in part: "It is because I have been identified with organized labor for so many years and because I am so much interested in the welfare of the American workingman that I stand here to-day and ask them to vote f r Harrison and Reil. The majority of voters of this country are workingmen, and it is they who elect Presidents now. present high level. They understood the situa- him for our supply. tion better in 1888 than they did in 1884 and they elected Harrison and Morton. They understand the situation better this year than they did in 1888, and will elect Harrison and Reid by did in 1888, and will elect Harrison and Reid by a greatly increased majority." Colonel S. F. Kneeland and Captain Jack Crawford also spoke.

Among those on the platform were William Patchell, J. F. Page, E. E. Eames, C. E. Hammond, A. W. Kingman, C. L. Webb, W. T. Moore, Joseph Quimby, J. B. Spellman, William J. Martin, Leonard S. Howard, Grinnell Willis, E. J. Chaffee, Marvin Wood, Robert Reoch, of Riverpoint, R. I.; William R. Hill, of Massachusetts. The officers of the club are: W. L. Strong, president: E. E. Weiskotten, secretary: Edward A. Treat, treasurer; William B. Fuller, first vice-president. Next Wednesday the noon meeting will take the form of a testimony meeting; all speeches limited to five minutes. A number of former Democrats who have joined the club will tell why they will vote for Harrison and Reid.

#### NO MORE LAGGING IN SOUTH DAKOTA. THE REPUBLICAN LEADERS ACTIVELY PUSHING

THE CAMPAIGN. Sioux Falls, S. D., Oct. 22 (Special).—The only hope the Democrats have of carrying South Dakota this fall lies in their ability to throw 15,000 or 20,000 votes over to the Weaver electoral ticket. This they are trying to do, and the word has gone out all over the State to the Democrats, telling them to support the Weaver ticket at all hazards. Two months ago the Republican campaign in South Dakota was lagging. The party was apathetic, and to all appearances inactive and dull. Within the last fortnight, however, the Republican State Central formight, however, the Republican State Central formights, however, the Republican State Central formights, however, the Republican State Central formights, however, the Republican State Central formights and the Republ Committee, awakening to the exigencies of the situahave instituted a most Their speakers are going all over the state now, and the Republicans, through Senator Pettigrew, Joseph be State Central Committee and A. B. Kittredge, National Committeman, have organized as they have never done before. The result will be the carrying of South Dakota for the Republican electoral ticket, and the election of the Republican nominees for State offices as well.

No local question is disturbing the heads of the State or National ticket. Three years ago the proposition to resubmit the constitutional inhibition against liquorselling was carried at the polis. A year afterward, in the lower branch of the Legislature, resubmission prealled by a vote of sixty-seven year to forty-nine nays. The Senate stood twenty-three in the affirmative and twenty-two in the negative, thus insuring the success of the friends of the proposition. Senator D. H. Clark, of Rapid City, who vored in the affirmative, died suddenly, and the matter went by the board, the law requiring that a majority of all the members. elect must vote in the affirmative. It will come up again this winter, and probably prevail, but it is a matter of no moment except in purely local contests. The Alliance is going to pieces in the northern counties of this State. Two years ago the People's party was at the height of its prosperity. Since that time better conditions obtain, the crops are good, and the prices realized therefor much more satisfactory than have been before, thus depriving the calamity-shriek ers of their stock in trade. Many of the Alliance ers of their stock in trade. Sany of the Kinamen have returned to the Republican party for these reasons. Others, seeing what Loucks and other leaders of the Alliance were doing, have awakened to the fact that they were being made tools of, and will vote for Harrison this fall. Loucks got tangled up with institutions like the Fidelity Insurance Company and the Scandinavian Elevator Company, which were operated at a loss to all who took stock.

## TO DOUBLE OUR BOHEMIAN TRADE.

Milwattkee, Oct. 22 (Special).-A. Rublee, United States Consul at Preque, who is home on a visit, says that Reciprocity is having a beneficial effect in Austria, and he thinks that it will soon double the trade of the United States with Bohemia. At present the importations from the United States consist mainly of small novelties, which can be manufactured cheaper here than in Bohemia, but the avenues of trade are now opened and it only remains for American manufacturers to push their goods into the country. From present indications, Mr. Rublee believes that a considerable trade will soon be worked up. Bo-hemia's exports to the United States never exceed its imports. The principal article of exportation is sugar, targe quantities of which are sent to this country.

### LUTHERANS OPPOSED TO RESUBMISSION.

Kansas City, Oct. 22.-The Lutheran Synod of Kansas, which is now in session here, has adopted an address urging the people of the State to oppose, at the coming election, candidates who favor the resubmission to a vote of the people of the prohibitory amendment.

THE FIGHT IN COLONEL HENDERSON'S DISTRICT. Waterloo, Is., Oct. 22 (Special).-The Hild Conress District is one of the most hotly contested districts in the state. Carried two years ago by Colonel Henderson at the end of a hard-fought campaign, and by the narrow majority of 198 votes over his Democratic opponent, it is a fight this year to the death. ocrats are using every entrt to get the district away from the Republicans, and the latter are making a strong fight to hold it. The district stretches from the Mississippi River over half way across the state, and the Republican majorities that are needed to overcome the almost solid Democratic vote of Dubuque County must come from the counties that are in the interior. Henderson is confident of his re-election.

### DOLGEVILLE LISTENS TO GOOD POLITICS.

Dolgeville, N. Y., Oct. 22 (Special).-An enthusiastic ass-meeting of Republicans was held here to-night, which was largely attended. The speakers were R. P. Thackery, of Maryland; ex-Congressman Sherman, of Utica, and Alfred Doige, of this town. Mr. Doige in his speech gave special attention to the tariff. He

and among other things:

The vocation of the calamity howler is gone, and even the most skilful juggling with official figures, in which the Free Traders always have been adepts, does not help them this time. Our farmers have found out that they can sell their products in foreign countries under a projective tariff as well as ever. They are new factories apringing up around their larms, which insure them a good market. They can

sell their wool to American manufacturers whose demands are daily increasing. He reviewed the merits of President Harrison's Administration and closed with warm praise for the candidates for this year.

### A LETTER FROM CAPTAIN PALMER.

COLD COMFORT FOR DEMOCRATIC CAMPAIGN

LIARS IN IT. Albany, Oct. 22.—The following from the ex-Com-ander-in-Chief of the Grand Army, is self-explana-

tory:
To the Editor of "The Journal."

I am in receipt of a great many letters asking why
I was "turned down" by the Republicans of Albany
County. It appears to have gone all over the country, and the Democrats are trying to make a good
deal of capital out of it, and over my own signature I
thought I ought to correct the impression that has
gonesont. I was not a candidate at the convention
for the nomination for member of Congress, and the
use of my name was entirely unanthorized.

### A FREE-TRADER WELL ANSWERED.

THE SECRETARY OF THE HOME MARKET CLUB REPLIES TO H. N. SHEPARD.

Boston, Oct. 22 (special).-Colonel Albert Clark. ecretary of the Home Market Club, makes the following reply to Harvey N. Shepard, chairman of the Executive Committee of the New-England Tariff Reform League, relating to the league's offer to buy timplate; "Your letter of yesterday is received. The Home Market Club has no desire to engage in importing, and while not doubting that an order for than \$300,000 worth of tinplate would be great boon to your British allies on the tariff que and might enable them to reopen the more sixty works which have been obliged to close on account of the fall in prices and the prospect of a diminishing market, and pleased as we would be to relieve their distress, yet, if w chad any orders to we should prefer to give them to our new American industry, which has grown up entirely since the duty was made protective, which doubled its production in the second quarter of the year, more an doubled I in the third, and more tran doubled it again in the fourth, and which has already developed a capacity equal to nearly one third of the home demand, and has brought the foreign export down within a few cents per box of the duty.

"But the very first sentence of your letter contains an erroneous assumption, which is fatal to the point They are coming to see more clearly that it is you sought to make. Protectionists have ever claimed Protection that is keeping their wages at the that the foreigner pass the duty while we depend on When we cease to be dep he pays the duty if he sells in our market. is illustrated by all our well-established industries, and In none more strikingly than in that of iron and steel which is closely aids to that of tin-plate, and in which we have outstripped all rivals and brought the price of pig fron to within \$1 50 per ton of the British price though the duty is \$6.72. You must not expect at industry which the whole Democratic party is to discourage to be built up to the capacity of producing nearly \$23,000,000 worth of goods in a single year. But I beg to as ure you that, if the Republican policy is sustained, the industrial independence of the country, which was recommended by Jefferson and Madison and Monroe and Jackson, will soon be achieved so well said, that 'It is the purpose of the protective policy ultimately to secure the lowest possible level of prices consistent with the highest possible level of wages,' and I hope you will come to believe with Pre-dent Hardron that nothing foreign is cheap to a people which deprives their labor of an opportunity to pro-duce it." and you will then realize what Senator Aldrich has

### THE WISCONSIN LEGISLATURE.

Madison, Wis., Oct. 22.-Both houses of the Legis lature have adjourned to Monday night without preparing an Apportionment bill. There seems little more prospect for the Republicans and Democrats to agree upon an Apportionment bill now than when the session opened. The Committee on Apportionment have been working on a bili and substantially acreed on to an understanding on the same members made on the Assembly districts, the majority c arges, have not been met by the Republicans in creating the senate districts. Senator McBride, chairman of the Appor-tionment Committee, says he still has hopes that the committee will Fe able to arrive at an agreement.

### IRISHMEN WHO DO NOT WANT A CHANGE.

Kingston, N. Y., Oct. 22 (Special).-In the town of Kingston, not far from the city limits, is a large set tlement of Irish people who are engaged mainly in quarrying and hauling of bluestone. Usually these men vote the Democratic ticket, but this fall they have stopped to think a little regarding their own personal interests, and Stony Hollow will show a new count on next election day. A prominent Democratic leader then aid a few days ago: "Oh, yes, we are nearly all Democrats up here, but this time we are going to vote for Herrison and Reid."

"Well, but how is that?" said the friend to whom he was talking. In some surprise.

"It's just like this. You see we have plenty of

work in the stone business just now and we get good pay; we have confortable homes here with enough to cat and to wear, and we don't like to risk a change, so we're going to vote for Harrison. That's all there is to it."

# DISGUSTED WITH DEMOCRATIC METHODS.

Bound Brook, N. J., Oct. 22 (Special).—"Der somerset Bote," the only German newspaper in Somerset County, comes out strongly in favor of John Kean, Jr., for Covernor in its issue to-day. Its editor, Walter Reiss, has been a well-known Democrat, a member of the German Democratic Club of Raritan and has conducted his paper heretofore in the interests of the Democratic party. The tactics of the ring politicians have disgusted him, as well as hundreds of other German citizens in this neighborhood, and in ness should not receive the support of the German

He argues that it is time for the self-respecting Germans to throw off allegiance to such men and bring about a change. The only way to rid the State of New-Jersey of bossism, the German paper says, is to vote with the Republicans this year for John Kean, Jr.

#### REPUBLICAN PROGRESS ON LONG ISLAND. QUEENS AND SUPFOLK COUNTIES ACTIVE WITH

ENTHUSIASTIC AND EARNEST WORKERS. Last week was an active one with Republicans all over Long Island, Queens County in particular being the principal scene of action. Starting at Long Island City and Astoria, the work has continued until all small villages along the north shore bave re sponded to the heat of the drum and listened to the nerous speakers who are making a tour of the The inland villages as well have had their trations, and even the smallest places on the south side have raised their banners as a beginning to the good work which is to follow, and though the Democrats are more or less organized, there is a noticeable lack of spirit in their operations, and hardly any individual enthusiasm, as all the 'pushing' is done by the party leaders. In many villages where there are uniformed Republican clubs the Democrate have not as yet made any effort in this direction in fact, have not shown themselves in a public man-

Friday evening there were mass-meetings at Sag Harbor and Cold Spring, and public meetings were anneanced for Saturday evening at Greenport, Little Nech and Roslyn.

Probably the greatest demonstration on Long Island for the conding week will be at Fluthing to-morrow evening, when Watner Miller and John W. Vroomat will address the people. There is to be a general demonstration in connection with this event. Senator Hiscock is aunounced to be at Glen Cove Thesialy evening, and during the remainder of the week there will be demonstrations at Whitestone, College Point, Baysde, Huntington, Patchogue, Southampton, Maspeth, Manhasset, Oyster Bay and numerous other places.

### JEWELLERS TO RAISE A BANNER.

Across lower Broadway the Jewellers' Republican Club will place a handsome Harrison and Reid banner Club will place a handsome Harrison and Red banks to-morrow afternoon. The members of the club ex-pected to raise the banner yesterday, but the arrange-ments were not completed. The banner will be of a striking design, and will attract much attention. It will be displayed in front of the club headquarters at No. 173 Broadway.

PRINCETON WILL HAVE A JOINT DEBATE. Princeton, N. The debate will be held one week before the election, and an interesting time is expected. The debate will, of course, be upon the Issues of the campaign. President McAllpin announced that Mr. Martin, of Newark, would address the club next Wednesday evening, and that an effort was being made to secure Whitelaw Reld to address the club in the near future.

GOV. ABBETT AND THE READING COMBINE. Phillipsburg, N. J., Oct. 22 (Special).-The Demo erais, after considerable effort, managed to get up a meeting here last night in one of the public halls the interest of Johnston Cornish, the party candidate for Congress, and to increase interest in the affair two clubs from Hackettstown and Washington were brought here at the expense of Cornish. They did not prove a drawing card, however, and there was a noticeable absence of prominent Democrats of this place. Cornish, while in the State Senate, voted to legalize the Reading combine, and for that reason he is bitterly opposed in this section. Edward Mc Donald, of Hudson County, made a plea for Cornish, in which he blamed the Democratic leaders in the state for playing for points in dealing with the Reading combine matter and other railroad legislation, and said that the leaders, including Governor Abbett, were to blame for the Reading deal legislation, as they favored it, though Governor Abbett, who had urked its passage, finally vetoed it. The declaration that Governor Abbett urged the passage of the bill has caused considerable comment here, as it is the first official utterance from a Democratic source which connects Governor Abbett with the matter.

### Caving In.

Just as a rotten tenement collapses when too great a weight or strain is brought to bear upon its upper floors, so does a puny physique collapse and cave in when subjected to the strain of disease which must come sooner or later if it is not reinforced and built up. Hostetter's Stomach Bitters is of immense service to the debilitated, the nervous and the dyspeptic, because it strengthens and prevents them from caving in. It is not necessary to have the biceps of a Samson to be healthfully vigorous. Many siender apparently fragile and undersized people enjoy phenomenal health. Vigor means ability to digest, sleep and eat well. This power Hostetter's Stomach Bitters will confer. It will, besides, cure malaria, bilious, rheumatic and kidney ailments, mitigate the infirmities of age and overcome nervousness.

### BISHOPS-ELECT CONFIRMED.

SEVEN OF THEM APPROVED BY THE HOUSE OF DEPUTIES.

AN UNPRECEDENTED INCIDENT IN THE HISTORY OF THE CHURCH-DR. TATLOCK'S

RESIGNATION. [BY TELEGRAPH TO THE TRIBUNE.]

Baltimore, Oct. 22.—The seven bishops elect sent by the House of Bishops to the House of Deputles vesterday were confirmed by the latter house this rning in executive session, without a word of dis sent from any one. The election of so many bishop at one time, five of them being for newly created missionary jurisdictions, is an unprecedented incident in the history of the Episcopal Church, and is locked upon as a suggestive indication of its expansion and growth. The appointments continue to be received with general favor, and it is believed that if they accept, of which not much doubt is felt, they will do much to advance the interest of the Church in their respective fields. The appointment for Japan is looked upon as in many respects one of the most important, and it is believed that Dr. Tidball, the bishop-elect, is just the man for the place. He is broad-minded and statesmanlike in as views, and, while he is a thoroughly good churchman, his churchmanship is tempered by robust common sens

to the ladies, many of whom had hoped not to be absent for a single moment during the whole convention. One of the noteworthy features of the convention, indeed, has been the presence and interest of the ladies, who reverse the usual process, for they stand in large numbers at the doors of the church to gaze upon and greet the bishops and deputies as they come out. As usual, nearly all the Episcopa pulpits to morrow will be occupied by Mshop clerical deputies, among them Bishop Potter and Drs Dix and Huntington, of New-York. There will be ndssionary meetings and two chi the session the committee on the consecration of bishops was announced and at once met to report the names of the bishops elect. The thanks of the house were voted to the dioceses of Albany, California. Colorado, Kentucky and Minnesota for their courteous invitations for the next convention. Dr. Huntingte asked that the committee on the standard prayer book be allowed to print 1,161 copies of the standard prayer-book instead of 1,011. The request was granted. The chair appointed a deputation to at tend the next Provincial synod of Canada. The read ing of the names produced a smile, as there wer three Browns on the deputation—the Rev. Dr. J. W Brown, of New York; J. M. Brown, of Maine, and J. R. Brown, of Rhode Island.

Dr. Kedney, of Minnesota, attempted to introduce a resolution relative to a court of appeals, but being then went into executive seadon and unanimously confirmed the nominations of the bishops elect as fol-The Rev. The resignation of the Rev. Dr. William Tatlock, of stamford, Conn., for so many years the faithful and efficient secretary of the House of Rishops, is deeply regrested by that body, but Dr. Tatlock deems the step precessary, owing to the constantly increasing labor of his parish. At present the assistant secretary, the Rev. Dr. C. C. Tiffany, of New York, is the acting secretary. There is a rumor that the House of Bishops will elect Professor Hart, of Trintiy College, Hartferd, Corm., to succeed Dr. Tatlock. His elect on would be a serious loss to the House of Pepulies, of which he is one of the most influential members, especially in matters pertaining to the prayer-book. Mrs. Susan Freund, a young woman living at No. 564 West Forty-eighth-st., was complainant in the Yorkville Police Court yesterday, against a notorious burglar, named Thomas Clark, whom she discovered in her house on Friday night. He was identified by Captain Devery. Mrs. Freund was alone in the house, when she was startled by hearing a strange noise. It came from an unoccupied portion of the house. She at once started to make an investigation and, taking a lighted lamp, she went to where the noise came from. Before she had time to throw open the door, it was opened from the inside by Clark, who dashed past her and down the stairs to the street. She followed close upon his heels, shrick ing at the top of her voice. Her cries were heard by Policeman Tolten, who was within a few doors of the house at the time. The burgher no sooner ap-peared in the street than he was grabbed by Tolten and handcuffed. An examination showed that Clark had rifled a number of hurean drawers, and had packed up a bundle ready for removal when he was

WORK OF THE CITY IMPROVEMENT SOCIETY. The City Improvement Society has drawn up an ardinance, which will be presented to the Board of Aldermen, requiring all carriages going about the streets at night to carry s'de lights. Among the things which the society is now trying to bring about it laying more streets with asphalt, especially in the tenement-house districts. If the streets of the tene-ment-house districts were paved with asphilt it would be much easier to keep them clean. The society is making a vigorous war on street encumbra has had several firms fined for obstructing the sidewalks in front of their stores. The society is also trying to put a stop to the reckless and fast riding of bleycles in the public streets.
